⚡ How the Renomex Restaurant Engine Protects You

- **Smart 2-Way Filtering:** Diners giving 4 or 5 stars are sent directly to your Google Business Profile to boost your local rank. Diners rating 1–3 stars are routed to your private dashboard inbox—giving you a chance to resolve complaints before they hit the web.
- **AI Review Reply Assistant:** 1-click in your Renomex Dashboard automatically drafts professional, grateful responses to Google reviews, signaling active management to Google's ranking algorithms.
- **The RichX Blockchain Moat:** Every rating is cryptographically timestamped and notarized on the RichX ledger. You have immutable proof of authentic human dining, protecting against malicious competitor bot attacks and arbitrary Google review deletions.

Standalone Vector Barcode for Custom Printing

Need table stickers, coasters, or laser-engraved acrylic stands? Log into your Renomex Dashboard and click “**Download the QR barcode**” to get the raw vector SVG for your commercial printer.
